

A MOURNER AT HIS OWN SUPPOSED BIER.

Cripple Creek, Colo., March 15.—J. J. McEachern has confessed that he originated a plot by which an insurance company was swindled out of \$3,000 by the substitution of the body of Robert Speed, a laborer, in the grave in which McEachern was supposed to be buried. At the funeral, McEachern himself, in disguise, was among the mourners.

**SANK SOUTH OF SABLE ISLE**

**Thirty of the Crew Rescued By Life Crew of Passing Steamers After Heroic Battle With the Waves.—Captain of the Ill-Fated Vessel Among the Dead.**

Boston, March 15.—The Phoenix line freight steamer British King foundered in a gale 150 miles south of Sable Island and carried down 27 members of the crew.

Thirteen men were rescued from the sinking vessel by the Leland liner Bostonian, and 11 by the German steamer Mannheim, Rotterdam for New York. Five others who had been drawn down in the vortex into which the British King was engulfed, were picked up by the Bostonian from a frail bit of wreckage which they had grasped after a desperate struggle for life in the whirpool. When the Bostonian arrived here the details of the disaster became known.

Captain James O'Hagan of the British King, died on board the Bostonian from the effects of terrible injuries sustained in trying to save his ship.

For days her captain and crew, working against unconquerable odds, had tried to prevent their ship's destruction. Captain O'Hagan himself went into the hold and strove to repair the most damaged sections. It was while doing this that a barrel of oil fractured one of his legs in two places. The injury was so severe that a piece of bone protruded through the flesh. Despite this he continued to direct the efforts of the crew. At the end of three days, when all hands had labored ceaselessly without rest and with little food, the Bostonian and the Mannheim arrived.

## Is Amended And Passed

**Senate Retains Petition Feature of Jones Local Option Bill.**

**IT NOW GOES TO THE HOUSE**

**House Passes the Bronson Primary, Reform By a Decisive Vote, Concession Being Made to the Smaller Counties—New Bills in the Upper Branch—Legislative Proceedings.**

Columbus, O., March 15.—By a vote of 26 to 10 the senate passed the Jones bill providing for municipal local option by petition instead of election. The measure was put through practically as reported by the senate temperance committee. Those voting against the bill were Senators Arbenz, Esby, Gayman, Hafner, Harper, Huffman, Layman, Pollock, Schmidt and Ward. Senator Mather of Akron was absent. The remaining 26 senators voted for the bill, and when the roll call began there was no question of the result.

The Jones bill provides that upon presentation of a petition signed by a majority of the qualified electors in any residential district the mayor or common pleas judge may order the closing of all saloons in such district after 30 days. In two years a petition may be offered for the sale of liquor in such district. Where a wet petition obtains a dry petition may not be

circulated for two years. No person who has signed a petition may withdraw his name from a petition after filing unless he can prove that the signature was secured by misrepresentation. No names may be added to a petition after it is filed. The bill is different from the Braddock law in that it provides that the maximum size of a district is 5,000 voters.

The bill as passed contains an amendment inserted by the senate temperance committee which makes it an offense to bribe, boycott or intimidate any one to sign a petition.

Bills passed by senate: S. B. Mr. Brandt, giving Chautauqua assemblies, etc., the right to police their own grounds; S. B. Mr. Williams, amending the code to arrange the election of councilmen to conform to the constitutional amendment.

Representative Baldwin's general appropriation bill carrying more than five millions, was passed by the house,

as was the Spangler house bill, to authorize township trustees to appoint inspectors of ditches and drains.

**Compulsory Primaries.**  
The house of representatives by a vote of 73 to 24 passed the Bronson house bill regulating the conduct of primary elections. An amendment offered by Mr. McCord, providing that the law shall not go into effect until October 20, was adopted, so that no candidates this year are affected. The bill, among other things, provides for compulsory primaries, for city and county officers in May and state officers in September, there being but one primary a year. All county and city officers are to be voted for directly at primaries, as well as delegates to congressional, judicial and state conventions, which latter make their own nominations.

A concession to the smaller counties was made by the author to allow objection in some of the small counties to the expense of primaries. This was in the shape of an amendment which requires candidates for county and municipal nominations to pay \$10 to the county treasurer to help defray the cost of the primaries.

New senate bills: Mr. Arbenz, providing for the test of all gas meters by the state sealer of weights and measures at the O. S. U. before being installed; Mr. Ward, fixing the charge for publishing the required insurance statements in newspapers at \$2; Mr. Hayes, providing for special certificates to teachers of drawing and manual training after September, 1908; Mr. Lawyer, giving the state four per cent. preference in the selection of jurors in capital offenses; Mr. Meek, providing that primary election voting machines, or primary and general election machines combined, may be used without the approval of the state commission, and may be bought by deputy supervisors of elections and used, if the price is under \$250, without submitting it to a vote of the people.

## SOFT COAL STRIKE WILL PROBABLY BE AVERTED

**Miners and Employers Likely to Agree on Restoration of 1904 Scale.**

**Illinois Operators Lag.—Must Come to Time or Fight Alone; Anthracite Situation is Acute.**

Indianapolis, Ind., March 15.—Indications in the miners' situation are that the operators and miners of the bituminous fields will agree on the restoration of the 1904 scale. If the Illinois operators refuse to grant the increase the operators of Indiana, Ohio and Western Pennsylvania will let them fight out their own salvation.

The anthracite situation is acute, but nothing definite regarding the operators' answer will be done until next Tuesday, when, it is expected, the bituminous scale will be out of the way.

At the first peace offering the miners convention will rescind the Ryan resolution and thus pave the way to a joint conference. President Mitchell will recommend that in the interest of peace substantial concessions should be made.

**Peace For Soft Coal Men.**  
All factions of the miners will go into the convention as a unit and President Mitchell will urge that harmony continue the entire sessions. Vice President T. L. Lewis has also declared in favor of a united convention.

While the coal dealers of Indianapolis are posting notices of an advance in bituminous coal of 25 to 50 cents a ton the 1,000 delegates to the miners' convention which opens here tomorrow, were congratulating themselves that all indications pointed to peace in the bituminous districts.

The fear of a strike in the anthracite fields became more pronounced, however, and unless something unforeseen occurs the miners in that region will walk out April 1.

Delegates from every district except Illinois reported that the operators were willing to grant an increase in wages equal to the reduction two years ago. The miners asked for 12 1/2 per cent. But it has always been the claim of the miner that he was ready for a compromise.

**Illinois Holding the Bag.**  
A number of operators who are here state that if the Illinois operators stand on their dignity and bolt the joint convention of operators that all the other states will make agreements with the miners and let Illinois bring on a strike in that state.

The operators' convention to be held here next Monday will be the largest in the history of the interstate movement. Besides the four competitive states, Michigan, Iowa, Kentucky and the coal states of the Southwest will be represented. The operators will meet with a surprise for which they are not looking. Every faction of the miners has buried the hatchet and when the convention opens they will act on all questions as a unit. Nothing that is likely to create discord will be brought up in the convention. John Mitchell and Vice President Lewis will work hand in hand.

President Mitchell will hold out the olive branch in his address to the convention. He will urge that every delegate confine himself to matters for the good of all and not to the injury of any one.

Troy, Ohio, March 15.—The swearing out of a warrant for Rev. F. J. Knipper, of St. Patrick's church, on a serious charge preferred by fourteen-year-old Mamie Burgin, has caused considerable excitement here. The father of the girl, William Burgin, who is not a Catholic, on being told the alleged facts by the girl, searched Father Knipper's house with the avowed intention of killing him. Three other girls are also mentioned in connection with the case. Father Knipper was seen here yesterday afternoon, but was not found after that, and it was said he left for Cincinnati. It is claimed that the priest admitted to several women some wrongdoing, and then went to Sidney, Ohio, to see a brother priest. The warrant was given Constable Harry Bumble, who left for Cincinnati.

Cincinnati detectives, with Constable Harry Bumble, of Troy, Ohio, made a search in this city yesterday for Father F. J. Knipper. They learned that he had called on Archbishop Moeller, and after he left there all trace was lost.

Archbishop Moeller said yesterday that he could not discuss the case, and that what passed between himself and Father Knipper was confidential. He will investigate the matter, but stated that he believed that Father Knipper was innocent of

## HANDS

**Covered With Blood and Welts on His Body After the Schoolmarm Whipped Him.**

Toledo, Ohio, March 15.—With his hands covered with blood and with big welts and cuts on them, the fourteen-year-old son of George Woodman, accompanied by his father, appeared before the Humane officers this afternoon to complain of Principal Grace R. Hunt, who is said to have inflicted the wounds. The father was infuriated at the teacher's alleged action and insisted that the matter be brought to light.

One of the officers accompanied the father and son to R. A. Bartley, of the School Board, and filed a complaint. The teacher admitted whipping the boy, saying that for the offense the boy had committed he was insufficiently punished. She also said he was one of the worst boys in school and that his teacher could do nothing with him.

## NELSON WINS OVER TERRY IN HARD FIGHT.

Chicago Boxer Has Big Lead Over the Brooklyn Lad in Six-Round Bout, But He Fails to Land a Knockout.

Has Former Terror Gregg at the End.—Dane's Superior Stamina and Hitting Power Tell the Story and Backers of the Easterner Are Glad the Bout is Over.

### FIGHT IN BRIEF.

Principals—Terry McGovern and Battling Nelson.  
How Ended—Six rounds, no decision.  
Weight—133 lbs. at ringside.  
Fighters' Share—Nelson to receive 45 per cent and McGovern 55 per cent of the gross receipts.  
Estimated Receipts—\$22,000.  
Nelson's End—About \$10,000.  
McGovern's End—About \$4,000.  
Referee—Jack McGowan, of Philadelphia.  
Timekeepers—Lou Duracher, for the club; Paddy Sullivan for McGovern, and Eddie McBride, of Buffalo, for Nelson.  
Gloves—Five ounces.  
McGovern's seconds were Hughey McGovern, Joe Humphreys, John Durick, Samuel Harris and Terry Lee.  
Nelson was seconded by Billy Nolan, Kid Abell, Eddie Kelly and Johnny Loftis.

Philadelphia, March 15.—Five thousand persons expressed their displeasure for the first two rounds of the six-round bout between Champion Battling Nelson of Chicago and Terry McGovern of Brooklyn. There were scarcely half a dozen solid blows struck, the most wrestling from one end of the ring to the other with the referee powerless to separate them. It had been agreed that the referee was not to lay his hands on the men, but simply warn them to step back when they rushed to a clinch. At the beginning of the third round the men began to fight as though they meant business. Nelson kept right after McGovern and used a straight left to advantage. McGovern fre-

quently countered with hard lefts and rights, but his blows, while they appeared to have great force behind them, failed to make an impression on the sturdy Dane. At the close of the fifth round McGovern went to his corner in distress. When the men came up for the final round Nelson sent a left to jaw and McGovern rushed to a clinch. His seconds cried, "hold on, Terry, hold on," and never were instructions carried out more thoroughly. Every time that Nelson would land a stiff blow McGovern would grab him around the body and hang on until Nelson would throw him off by sheer force. It is doubtful if McGovern could have stood the grueling for another round.

The Dane exhibited some rough work in the early rounds. He frequently used his right elbow and bore in on McGovern repeatedly with his head. Nelson decried the decision, but as no decisions are rendered when both men are on their feet, the fight is classed as a draw. Neither man was knocked down during the fight, but McGovern slipped to the floor in the fifth.

## SAYS

### Wife Cost Him \$700,000 A Year

ANOTHER OF PITTSBURG'S GROUP OF STEEL MAGNATES IS IN MARITAL TROUBLE.

New York, March 15.—James P. McQuaide, another of Pittsburgh's group of steel trust magnates, is having marital troubles which will soon be aired at a trial of a suit brought by his wife for separation and alimony.

McQuaide says that he did not know that his wife was suing him until he read in the newspapers that Mrs. Sarah S. McQuaide had told Judge Burr, in the supreme court of Brooklyn, that her husband had beaten her and left her penniless.

McQuaide denies that he ever struck his wife and charges that the trouble in his household was instituted by Mrs. McQuaide's sister. Among other things, he says his sister-in-law, Isabel, broke five of his ribs.

In reply to the wife's charge that her wealthy husband had driven her out of the house and that she was penniless, McQuaide said that he had given his wife the Nyack estate, real estate in this city which she had sold for \$67,000, and had made a trust deed so that his wife received \$573 a month. He claims his wife's extravagance cost him \$700,000 a year to live.

# Umbrella Mender

## Who Assaulted a Sixteen Year Old Girl Near Glynwood

Was Yesterday Bound Over to the Grand Jury in the Sum of \$1000 at Wapakoneta.

Frank Williams, the umbrella mender who assaulted a sixteen year old girl near Glynwood several days ago, and who was later arrested at Wapakoneta, was yesterday afternoon bound over to the grand jury in the sum of \$1,000.

The prosecuting witness, Amanda Burden, stated at the preliminary examination yesterday that she was not quite sixteen years old and that she was returning home on the railroad track after having taken her father's dinner to him at Glynwood. The defendant came from the woods, caught her by the throat and threatened to kill her if she screamed. She struggled, but was unable to resist the fiend. When he left she hastened home, about one mile from Buckland, but finding her mother absent went to the home of Mr. Mummaugh, where the mother was found.

Mr. Mummaugh, the next witness, said he started on a hunt for the

defendant as soon as the girl related her story, but was not successful. Mr. Mummaugh stated the girl had red marks on her neck, her hair was matted and she was crying. Williams said the girl's mother was present and after examining her daughter and not finding her seriously injured said "she ought not to make so much fuss about it."

The defendant, an uncouth umbrella mender, denied guilt and said he had not seen the girl that day, last Friday. He says he left Glynwood and walked toward Wapakoneta, when a buggy occupied by a school teacher came by and he got permission to ride. He rode the rest of the way and reached Wapakoneta in the evening, making it impossible for him to have committed the assault, which is said to have occurred at 2 o'clock. He stopped all night with horse traders north of town, where he was when arrested. He insisted he was innocent.

# TREASURE WAS IN WRECK

## Express Messenger Saved and Guarded Uncle Sam's Cash.

Tiffin, O., March 15.—A story of the terrible Baltimore and Ohio wreck at Godsend Sunday, is to the effect that the express safe which Lee Buckingham, of this city, route agent of the United States Express company, rescued from the burning express car in the very teeth of the flames, was being shipped from the United States treasury in Washington, D. C., to the subtreasury in Chicago, and that it was crammed full of paper money, aggregating several hundred thousand dollars. It was noted that Mr. Buckingham was carefully guarding the big iron box as it stood on an empty flat car covered with a tarpaulin, but none of

the thousands of people who observed it had any idea of the value of the contents. Conductor Clem Cross, of Chicago Junction, who came to this city on No. 7, last Sunday, to visit his two little daughters, who are students at the Ursuline college, says that the ill-fated train had a narrow call a few miles east of here, less than an hour before it was wrecked at Godsend. A farmer, who was walking along the track, discovered a section of about six feet broken out of a rail and, realizing that the fast train was about due, he rushed back and succeeded in "upping" it and thus averting a disastrous wreck at that point.

# Amusements

George Ade, whose generally acclaimed masterpiece, "The College Widow," comes to Faurst Opera House tonight, is in Egypt gathering material for a new play. This is rather ominous, and unpleasantly so, for Mr. Ade's admirers have hoped that he would stick closely to the American types and environment of which he is the master draughtsman of all time. But perhaps Mr. Ade intends to take a bunch of Americans mummy hunting in his next. That wouldn't be bad!

Mr. Herbert Kelcey, playing the title role in "The Lightning Conductor," had an exceedingly unpleasant surprise on returning to New York after playing an engagement at Montreal, Canada. On arriving at his apartment on St. Nicholas avenue, he was not a little startled to find ev-

erything topsy, turvy and all valuable in the way of silver and bric-a-brac conspicuous by their absence. It was not necessary to bring to his mind the action of the renowned Sherlock Holmes, whom he artistically presented for several seasons to tell him that he had been robbed of everything portable left behind him. The employees about the building were as nonplussed as Mr. Kelcey himself was when notified of the loss. The New York police looked wise and declared it a flagrant case of burglary. Now, Mr. Kelcey is mourning the loss of many treasured souvenirs and the most astute Sherlockian deductions are not helping him in tracing them. Mr. Kelcey and Mrs. Shannon will be seen at Faurst Opera House tomorrow evening in their new play, "The Lightning Conductor."

most of her life was spent, her  
companion preceding her to the  
tomb in 1890.

Circumstances are survived by  
two sons and a daughter—L. J. &  
W. Engineer John Quinlan, at  
whose home death claimed her;  
James Quinlan, of Cleveland, an  
engineer on the B. & O., and Mrs.  
James Hays, of LaJunta, Colorado.  
The funeral will be held at St.  
John's church Friday morning at  
8:30 the deceased having been a de-  
vout and life-long member of that  
faith. The body will be laid to  
rest in Gethsemani.

A Clever Program Presented by the  
Epworth League at Grace  
Church Last Evening.

The entertainment which has  
been announced in this column sev-  
eral times, to be given entirely by  
local musical and literary artists,  
came to pass last evening and pro-  
ved to be as entertaining as had  
been anticipated. Each number was  
particularly interesting owing to  
being acquainted with the author or  
composer, and the success of the af-  
fair will give encouragement to the  
artists to renew their efforts in their  
special line. Miss Rowena Post  
had charge of the League Depart-  
ment under whose direction the en-  
tertainment was given, and to her  
special credit is due. "Dewey's  
Victory March," one of the recently  
published compositions of Prof. J.  
F. Drennon, was played by Miss  
Hazel Hoover, pianist. Miss Hoover  
also set to music for a ladies' quar-  
tet, words written by Miss Rowena  
Platt. The title was "The Bright  
Side," and it was prettily rendered  
by Mesdames Horrell, DeVoe, Stran-  
ahan and Miss Gail Bowdle.

F. L. Houtzer, South Lima's  
fluent poet, furnished two numbers,  
"Married or Buried," and "A Church  
Donation." Mr. Houtzer read the  
first poem while Miss Bonnie Weth-  
erill gave the second.

"The Heavenly Vision," words  
by Miss Olive Pettier and music by  
Prof. Frey, was rendered by E. M.  
Clapper.

Two quartets, "Welcome Glee"  
and "Goodnight," made an appropri-  
ate opening and closing for the pro-  
gram.

D. J. Kunkleman gave an oration  
entitled "On the Way Up," which  
was well received.

C. H. Bogardus sang a vocal solo  
bearing the title "If."

A paper entitled "Hymns of the  
Christ Life" was read by Mrs. C. H.  
Bogardus, who introduced several  
hymns which were sung by the con-  
gregation.

The offering amounted to \$18.70  
and will be applied on the payment  
for the piano recently purchased.

C. B. Warren, of 721 Atlantic ave-  
nue, is in Linwood, Pa., called there  
by the death of a cousin, Gail B.  
Cowie. The deceased, who was a de-  
vout twenty-five years of age, resided  
with his parents in this city until  
about two years ago, and the many  
friends and acquaintances of the  
family in this city will be pained  
to hear of his demise, the fourth  
death to occur in the Warren-Cowie  
families in eleven months. In the  
employ of the Standard, Mr. Cowie  
was transferred to North Baltimore,  
thence to the Marens Hook refinery  
at Linwood, near Philadelphia.

Division No. 2, Ancient Order of  
Hibernians have an excellent pro-  
gram prepared for a celebration of  
St. Patrick's day, next Saturday

talent will contribute readings and

musical numbers, and Hon. M. O.  
Burns, of Hamilton, an eloquent or-  
ator, will speak upon the subject,  
"The Day We Celebrate."

The remains of John Austin, fa-  
ther of Grocer, J. D. Austin, will be  
consigned to earth today at Harrod,  
where the long and useful life came  
to a close Monday afternoon. The  
deceased, who had been sick all win-  
ter, was aged 85 years, and the last  
five years of his pilgrimage were  
spent in total blindness.

Mr. and Mrs. J. M. Rader, of Tan-

fayette, are guests of their son, Mail  
Carrier E. G. Hall and family of Lin-

improvements in the latter's prop-  
erty at 419 Second street.

## CONTRACTOR

FROM THIS CITY ARRESTED  
YESTERDAY AT VAN WERT  
FOR ALLEGED ASSAULT.

(Van Wert Bulletin.)

Oscar E. Shoop, of Lima, contrac-  
tor for the mason work on the Don-  
wicz block, was arrested last night,  
for an unprovoked assault upon Hen-  
ry Samuel, of Union township, at the  
Hotel Sier. Samuel was in the hotel  
office in conversation with the land-  
lord when Shoop, whom Samuel had  
never spoken to, struck him several  
vicious blows in the face. He was  
fined \$20 and costs.

## MOTHER AND CHILD.

Let the mother take  
Scott's Emulsion for the  
two; it never fails to  
benefit them both. One  
can eat for two, but nour-  
ishing two is a different  
thing. It calls for a de-  
gree of internal strength  
that the average woman  
lacks. People of luxury  
are not very strong by  
habit; overworked people  
are weak in some func-  
tions from exhaustion or  
their surroundings. Scott's  
Emulsion can be depend-  
ed upon to overcome such  
conditions. It is a won-  
derful food for a mother  
and child.

# WOOD REPLIES

To Charge That There Was Wanton  
Killing in the Moro Battle.

Washington, March 15.—A cablegram  
from General Wood regarding criti-  
cisms of the recent battle of Mount  
Lapu, on the island of Java, together  
with correspondence between the pre-  
sident and Secretary Taft on the sub-  
ject, have been made public. General  
Wood's cablegram was in answer to  
one sent to him at the direction of Sec-  
retary Taft, who called attention to  
the criticisms of "wanton slaughter of  
Moros," and asked him to send all the  
particulars. General Wood's reply de-  
nies that there was any wanton killing

and says a considerable number of  
women and children were killed in the  
fight because they were actually in the  
works when assaulted, that Moro women  
were used as shields. The reply was  
sent by Secretary Taft to the presi-  
dent with a note, in which the secre-  
tary says that General Wood seems to  
him to show most clearly that the un-  
fortunate loss of life was wholly un-  
avoidable, to which the president re-  
plied that General Wood's answer was,  
of course, entirely satisfactory.

# THIRD TERM

Parker Says Roosevelt Will Ask For the  
Nomination.

Birmingham, Ala., March 15.—Judge  
Alton B. Parker passed through this  
city, returning to the north. In an in-  
terview the former presidential candi-  
date said: "I am convinced, as far  
as I am personally concerned, that Mr.  
Roosevelt will ask for the nomination  
of the Republican party for a third  
term. While this would probably be  
disputed if it was reported in Washing-

ton or in other portions of the east, in  
my own mind I am satisfied that at  
present this is the intention of the  
president. In spite of the fact that  
when his nomination in 1904 was an  
assured fact he made the statement  
that under no condition would he  
again be a candidate. I believe that  
Roosevelt has intended all along to  
again ask for the nomination."

# RATE BILL

Rouses Sharp Debate in the Senate.  
Foraker's Remarks.

Washington, March 15.—The rail-  
road rate bill reached the controver-  
sial stage in the senate. Mr. Foraker  
was the chief speaker and the debate  
that took place was provoked by some  
of his utterances. Among the senators  
who were aroused by him were Messrs.  
Foraker, Lodge and Dooliver. Both  
the Ohio senator and the Massachusetts  
senator took exception to Mr.  
Foraker's contention that the railroads  
have interfered in the framing of the  
bill, and Mr. Foraker also expressed  
himself as dissatisfied with the infor-  
mation that the railroads are represented  
on the floor of the senate. Mr. Dooliver  
expressed displeasure with the plea  
for amendments and went so far as to  
say that the help of such friends as  
Mr. Foraker could very well be dis-  
penssed with. Other senators who par-  
ticipated in the debate were Aldrich,  
Tillman and Knox.

Caucus on Statehood.

Washington, March 15.—Whether  
the caucus on statehood to be patterned  
in by Republicans of the house is  
"to hold" those who attend has been  
an absorbing topic of discussion  
among "insurgent" members of the  
party. No conclusion has been  
reached. For this reason a conference  
of those Republicans who wish to con-  
cur in the senate amendments has  
been called. At this conference it will  
be determined whether the insurgents  
shall attend the caucus or shall stay  
away. Speaker Cannon says he has  
not yet lost faith in the overwhelming  
Republican majority which voted for  
the house bill. He received many tele-  
grams today and admitted that influ-  
ences were working to secure a con-  
currence in the senate measure.

# BY LABOR LEADERS

Gilbert Anti-Injunction Bill Demounced  
Before Committee.

Washington, March 15.—President  
Gompers of the American Federation  
of Labor, and A. Furuseth, president  
of the seamen's union, caused a furor  
before the house committee on judi-  
ciary during the hearing on anti-in-  
junction bills by denouncing the Gil-  
bert anti-injunction bill, which is said  
to have been drawn by Mr. Garfield,  
chief of the bureau of corporations,  
and to have the endorsement of Presi-  
dent Roosevelt. Of the president's re-  
ported endorsement of the Gilbert  
bill, Mr. Furuseth said: "If he under-  
stands this bill and then gives it his  
endorsement, he is an enemy to honest  
labor struggling under adverse con-  
ditions for a better life, nay, he would  
be an enemy to human liberty. We do  
not believe, will not believe it." The  
Gilbert bill grants courts sitting in  
absolute jurisdiction in all cases  
growing out of labor troubles.  
The equity process in labor suits is  
viciously opposed by the labor leaders.

# Touville Hurts Goeke's Chances

Outlook for a Bitter  
Congressional  
Fight.

DARK ALONE IS FREE

ALL OTHER COUNTIES IN THE  
FOURTH DISTRICT HAVE CAN-  
didates FOR GARBER'S  
PLACE.

The entrance of Attorney William  
E. Touville, of Celina, Mercer coun-  
ty, into the fourth congressional  
Democratic fight, has upset the cal-  
culations as to the termination of  
this contest. Mr. Touville, backed  
by a solid delegation from his coun-  
ty, will become a formidable dark  
horse, and it must be conceded that  
so long as he stays in, the nomination  
is as much his own as any of the  
other three.

The three other aspirants are Dr.  
J. W. Costello, now coronator of Shel-  
by county, who has his own person-  
ally selected delegation, J. Henry  
Goeke, of Anglaize, who will be en-  
dorsed at a primary, and Charles E.  
Adkins, former state representative,  
who has Allen county's hearty sup-  
port, who was endorsed at last fall's  
primary and who will select his own  
delegation. With Touville holding  
Mercer, Darke county will be the  
only free territory in the district, and  
solid for any one man, cannot make  
a nomination. With these four can-  
didates going into the convention,  
the same long drawn out battle is ex-  
pected that occurred when Harvey C.  
Garber defeated Adams four years  
ago in a tri-city contest, in which  
more than 1,900 ballots were cast.

Berney W. Layton, assistant ser-  
geant-at-arms of the United States  
senate, and a leader in Anglaize  
county politics, is openly opposed to  
Goeke, and it is said, will come west  
at the primary and endeavor to de-  
feat Goeke's aspirations for a solid  
delegation from Anglaize. This is  
the biggest cloud on Goeke's politi-  
cal horizon, as weakened at home,  
he cannot hope to ally himself with  
any delegation but Darke, which, if  
controlled by Congressman Garber,  
it is conceded will be friendly to him.  
Chairman George W. Sigafos has  
given no indication as to when he  
will call the congressional commit-  
tee together, though it is believed  
the convention will be no a May affair,  
and now that Mercer has a candi-  
date, efforts will be made to hold  
it in Darke county, which would favor  
Goeke.

## GOSPEL OF THE DAY.

"Sugar weather," declared a man as the snow melted through his whiskers yesterday.  
"Yes," said a down easter, "when I was a boy this sort of a storm was a reminder that it was time to top the trees and set out the sap buckets. But we haven't had an ideal winter for a big sugar harvest. There has not been enough cold weather. If my memory serves me, the sap was sweeter after a hard winter with an occasional break-up. Then we needed warm sunshine in the daytime and a freeze-up at night to make conditions perfect."

"Had great sport in those sugar making days. Father built a sap boat, a crude affair just large enough to hold a barrel. We would hitch a horse to the boat, drive to the sugar grove, fill the barrel to within a couple of inches of the top and haul it to the house. Placed a solid oak cover just a bit smaller than the head of the barrel on the sap and that prevented it spilling. Then we would cover the kitchen stove with kettles and keep the fire burning steadily for days, pouring in fresh sap now and then to keep the kettle boiling. And then when 'sugaring off' day came, we youngsters didn't know anything of trouble."

## SMILE.

When you're working, don't forget to smile.  
Do it now.  
A habit 'will become after while, just somehow.

If your duties make you sore distressed, and your thoughts not settle down to rest.  
Smile;  
Do it now;  
Just somehow.

Offtimes the day seems long and weary.  
Maybe now.  
Sometimes the way appears so dreary.  
Just somehow.

Now, friends, don't worry about your trouble, 'twill only make your burden double.  
Smile;  
Maybe now;  
Just somehow.

Should your friends look down upon your ways,  
Ever now,  
You will surely find that smiling pays.  
Just somehow.

Even though it's hard to do at times,  
Rippling smiles resound like fairy chimes.  
Smile;  
Even now,  
Just somehow.

A bill has been introduced in the Iowa legislature similar to the one which was turned down by the Ohio law makers, legalizing the killing of people afflicted with incurable maladies or suffering from mortal injuries. The author of the bill stated that it was a practice in many hospitals anyway, and that such a law would be wise and humane.

The Chicago newspapers interviewed the physicians in the hospitals of that city concerning the truth of the statement. Every one denied that euthanasia was practiced in any of the Chicago institutions, and what's more, they took strong ground against it. In the first place, a great many people who have been declared as good as dead by physicians, have recovered. Years ago it was thought that a man couldn't live with a broken back or a fractured neck, and yet medical science records several cures of this character. There is the higher moral objection to taking human life, even with the consent of the sufferer. And rarely will a person consent to being put out of the way even though he is convinced that death will come in a short time.

Life is sweet, and where there is life there is hope, and it is this hope which has pulled many a man out of the grave after the doctors have ceased to minister to him. But what's the use of discussing the question further. The Iowa bill will meet the fate of the Ohio bill, and the cranks who are responsible for it, will subsidize for a time at least.

A Chicago man has willed his pot fox terrier \$20,000 and his brother-in-law an income of \$50 per month. Calculating interest at three per cent, the man would face equally well with the dog. But comment in this rather unusual and apparently ridiculous distribution should be withheld until the critic makes the acquaintance of both dog and man. It may be that the testator knew his business, as the late Senator Hanna was wont to say of the Republican party.

## PREACHERS

Want All the Cigar Stores

CLOSED ON SUNDAY, BUT MAYOR

ROBB ANSWERED THAT PUBLIC OPINION WOULD NOT SILENCE HIM IN SUCH AN ACT.

The committee from the Pastors' Union who waited on Mayor Robb a few days ago, requested him to close the saloons on Sunday. To this request the Mayor answered that the law calling for the closing of saloons on Sunday had been enforced for a year or more. They then requested that the slot machines be turned to the wall, and His Honor answered that action had been started along that line a few days before. They then presented the modest request that all cigar stores be closed on Sunday. The City's Chief Executive replied that he didn't think public opinion would sustain him in such an action, that if he closed the cigar stores he would stop milk wagons, the sale of papers, the street cars, etc., etc. The pastors then left without urging further action.

GREAT

ATTRACTION FOR FAUROT'S TOMORROW EVENING—"THE LIGHTNING CONDUCTOR" AT THE VALENTINE, TOLEDO, TO-NIGHT.

"The Lightning Conductor," with Herbert Kelcey and Edna Shannon, taking the leading parts, plays at the Valentine in Toledo this evening. The company will reach this city tomorrow noon over the C. H. & D. It will be one of the best attractions of the season, and the advance sale, which opened this morning, went with a rush.

CIGAR TALKS.

How Melville can sell as Good a Cigar as the Chico for 5c.

"You want me to talk about cigars?" said Mr. Melville, the druggist, to a NEWS reporter.

"I think the better way is to let our cigars talk for themselves," he continued. "There is one cigar in our case, the 'Wadsworth Bros. Chico,' which is doing a lot of talking, even shouting. I consider myself fortunate in getting the agency for it, as it is in reality equal to any 10c. cigar, and it costs only 5c."

"You see I buy it direct from the maker, and the middleman does not get any profit. At any rate, it is becoming the best seller in my case, and people who heretofore would have nothing but a 10c. or even 15c. cigar, ask for a Chico, and say 'they like it. Better try one yourself and see how good it is.'"

FOLLOWING AN OIL BOOM.

Harrigan, the manager, who lives here, has just returned. He says there is much work in the new field and that the town of Casey has doubled in population since the oil boom started.

THE REVIVAL.

The conditions are all favorable with faith in God and his promises for a great meeting at Trinity church. Without any outside help, the pastor began special services ten days ago, and the interest has steadily increased. Last night there were more non-church people present than at any previous meeting.

Mrs. Ebersole has been engaged as soloist and she will sing at every service. Her sweet gospel songs are well calculated to touch all hearts. The presiding elder, Rev. David Bowers, will preach tonight. He always has an important message. The meeting begins with a song service at 7:30.

## YOUNG MATRONS WILL MEET.

The Young Matrons' Sewing Society of the Market Street Presbyterian church will meet with Mrs. B. A. Connolly, of 917 west High street, tomorrow afternoon at half past two o'clock, for an old time "sewing bee." It is desired that every member at-

tend and bring her own sewing, and go prepared, too, to enjoy a St. Patrick's Day program.

Mrs. Vanderbilt, Sr., who since she emerged from the mourning for her husband has been gradually gathering into her hands the strings of leadership of New York society, for which her somewhat imperious and authoritative character, brooking no contradiction, qualify her in a marked degree, has recently issued an edict that the use of the precise "Mr." on the envelopes of letters addressed to social equals is an act of discourtesy and that in lieu thereof the magic letters "Esq., standing for "Esquire," must be added to the name, the prefix "Mr." being reserved exclusively for social inferiors.—Pittsburg Sun.

## A SLEIGHT OF HAND PARTY.

A crowd of jolly girls consisting of the clerks of S. H. Knox & Co.'s store enjoyed a delightful sleight of hand party last evening. They dined to the beautiful country home of Miss Hazel Edwards, which was open to receive the merry-makers. Sweet music and games were enjoyed, and at a late hour a two course luncheon was served. Covers were laid for the following: Misses Pearl Johnson, Lillian Oplinger, Grace Watts, Stella Fuller, Margaret Flinn, Harriett Van Norman, Margaret Yoakam, Luella Hill, Ethel Gibson, Nona Corcoran, Gail Snow, Norma Mower, Ann Hill, Francis Wilson, Rose Yoakam, Stella Burnt. TO BREAK UP A COLD  
IN 24 HOURS AND CURE ANY  
COUGH THAT IS CURABLE

Mix one-half ounce of the Virgin Oil of Pine (Pure) with two ounces of glycerine and half a pint of good whiskey. Shake well and use in teaspoonful doses every four hours.

Dr. Leach, the famous throat and lung specialist, who established a camp for consumptives in the Pine Woods of Maine, and whose wonderful cures there have attracted the attention of the civilized world, declares that the above formula will strengthen weak lungs, relieve the cough, heal the bronchial tubes and cure any case of lung trouble that is not too far advanced, providing the patient will assist by taking plenty of outdoor exercise, inhaling long deep breaths every few minutes.

It is said the mixture will break up an ordinary cold in twenty-four hours and being free from opiates and drugs is far preferable for the use among children to the ordinary cough mixtures.

The ingredients can be secured from any good prescription druggist at small cost and easily prepared in your own home. Inquiring at the prescription department of one of our leading druggists elicited the information that Virgin Oil of Pine (Pure) is put up only in half-ounce vials securely sealed in a round wooden case with engraved wrapper showing the name—"Virgin Oil of Pine (Pure)"—plainly printed thereon. Only the cheaper Oils are sold in bulk, but these produce nausea and never effect the desired results.

A local physician who is familiar with the treatment used by Dr. Leach in his camp in the Pine Woods, says it is undoubtedly the most effective known to medical science at the present time and save for the open air life in the forest would prove just as effective if used at home. He says the formula given above is the one used by Dr. Leach and that it has the unqualified endorsement of the leading physicians of the country.

The physician added, if the formula was known and used generally by the people, throat, lung and bronchial affections would rarely reach an acute stage.

The Pure Virgin Oil of Pine is also a perfect neutralizing agent for uric acid. A few drops taken in sugar night and morning will heal and regulate the kidneys and relieve the most obstinate case of rheumatism if caused by uric acid in the system.

F. M. Horn of Wapakoneta was a business visitor in Lima yesterday.

Miss Nora Hershberg was the guest of Miss Fannie Hirsch of Wapakoneta yesterday.

C. H. Glick was in Findlay on business Tuesday.

Bluffton, Ind., March 15.—An officer from Lima, O., came to Wells county last night with warrants for the arrest of Bert Gossard and Stanton Isengle, living at Toesin, in the northeastern part of the county. They were wanted to answer to charges of assault and battery, but refused to accompany the officer. They sent a petition to Gov. Hanly asking him not to grant requisition papers.

Weather Prophet Foster, in his latest predictions makes a guess on the storm waves which will visit the Central States. A disturbance will occur 14th to the 16th and will be accompanied by a warm wave the

14th and a cool wave the 17th. This disturbance will develop more than usual intensities; an weather features will be more prominent than usual. Temperatures will reach the top for this month as this disturbance approaches. Rainfall will increase and will be greater for next two weeks than for the past two. This warm wave will cause a general thaw further north than is usual and will promise an early spring but the month will close cold and thaws will not be good for winter wheat. We are approaching a season of unusually variable crop-weather, so radical that corn, wheat, potatoes, flax, grass and cotton will depend on the nature of the soil to a greater extent than for years.

New York, March 15.—Secretary of War Taft was in conference in this city with three of his brothers and with several intimate friends. It is believed that the matter of the secretary's decision as to going upon the bench of the supreme court of the United States was under consideration. But if a conclusion was reached by Mr. Taft no announcement of the fact will be made for several days yet, not at least until the secretary returns to Washington and has a further interview with President Roosevelt.

**General Corbin On China**

St. Louis, Mo., March 15.—"There is no prospect of a war with China. In my opinion," said General Corbin, who has arrived here. "There is no feeling of hostility on the part of the Chinese government or people as a whole against Americans. America has more of what China wants than any other nation. Japan may dispute with American manufacturers much of the trade of China, but the celestial empire will always offer a market for our foodstuffs. There is no significance in the transporting of American troops to the Philippines so far as the Chinese situation is affected. Of course there is no disputing the fact that a certain amount of anti-foreign feeling exists among the Chinese. But this feeling is anti-foreign rather than anti-American. One of the causes is the missionaries. The Chinese are a people of deep-rooted religious beliefs and do not take kindly as a people to a change in religion."

**The Mine Workers Convene**

Indianapolis, March 15.—The proceedings of a stormy convention of the United Mine Workers of America at the Gorman House bid fair to be verified. From the talk of the delegates there will be decided opposition toward the repealing of the "Ryan resolution." This is the most important matter to come before the convention and there is reason to believe that a decision either for or against will not be reached for several days. Little was done today beyond the work of organizing the convention, seating the delegates and the reading of President Mitchell's address. While the number of delegates is less by 750 than the regular national convention, the work of the credentials committee was no small task.

**Pronounced Bad Policy**

New York, March 15.—A resolution declaring that vast interests will be jeopardized by the passage of legislation providing for the election of all members of the board of trustees of insurance companies at a single election to be held this year was adopted by the trustees of the New York Life Insurance company. This measure is proposed by the legislative insurance investigating committee's report.

Jamestown, Ind., March 15.—While nine men were sitting about the stove in a little grocery store here remarking on the possibility of the collapse of the adjacent building, which was undergoing repairs, three of them were killed and five injured by the collapse of the Odd Fellows' hall, which crushed the grocery store like an eggshell.

The dead: Samuel Lewis, retired, 73; George Scott, farmer, 35; Charles Hedge, laborer, 41. The injured: William Mitchell, Jr., R. T. Abney, Joseph Jackson and Julius Woodward.

Cleveland, O., March 15.—A man supposed to be J. Cline of Boston, Mass., climbed the flagpole of the Williamson building, a tall structure on Euclid avenue, and reached a height of 225 feet above the street. Police-men managed to get him down, and he was found to be dressed in sailor's costume. He gave the name of "Grover Cleveland." Thinking him a deserter, the police took him to a recruiting station, where it developed he was formerly a sailor on the battleship Iowa and had recently been in an insane asylum in Boston.

The steel company operates mines under the Hawk farm, and Mrs. West claims the company's men crossed the line and removed coal to the amount of not less than 72,000 tons.

**CLOSE CALL**

Chicago, March 15.—A crowded electric car on North avenue ran over the abutment of a temporary bridge over a branch of the Chicago river, and a serious accident was averted only by the presence of mind of the bridge-tender. The bridge which was swinging open was turned back so that the car instead of plunging into the river, which is 22 feet deep at that point, struck a scow which supports the bridge. The passengers were piled up against the front door of the car, and in the struggle to escape several were injured. One, Mrs. Elizabeth Blahm, 61, may be fatally injured.

**Mystery of Lost Handkerchiefs.**

"Obviously there is a vast difference between the lost and found columns of the handkerchief market," said the woman shopper. "Everybody loses handkerchiefs, but who finds them?"

"I lose a handkerchief every time I go downtown," is the familiar plaint of women, but who ever heard of one saying, "I find a handkerchief every time I go downtown?" Nobody says it, because nobody does such a thing, and somewhere about town many yards of linen and lace done up in handkerchief form are blown about daily, seeking owners. Eventually they are picked up by the street sweeper, but by that time they are so tattered and soiled that he can scarcely recognize them as handkerchiefs. Anyway, not being a philosopher, he would not stop to wonder how they happened to be there. It would be interesting, however, if he or somebody else would figure out why, in view of the many handkerchiefs that are lost, so few are found."—New York Press.

# A PROPOSITION TO BE SUBMITTED

To the City Council by the Board of Public Service

Whereby it is Thought the City Can Be Saved Several Thousand Dollars

Since the completion of the large storage reservoir the Board of Public Service have had many things with which to contend. One of the most perplexing problems was the exorbitant cost of electricity with which to run the pumps at the new reservoir. According to a statement of the members of the Board of Public Service three thousand dollars were paid the Lima Electric Light Company last year for electricity to fill the reservoir half full of water, or rather to pump 250,000,000 gallons of water. They now have propositions from responsible concerns to put in a plant at the central water works pump station that will pump 650,000,000 gallons of water into the reservoir for less than three hundred and fifty dollars. It is also agreed in these propositions to put the electricity on the switch board at less than one-half cent per kilowatt, while the Lima Company's bid is five cents per kilowatt. Along these lines the City Auditor has prepared the following communication which will be presented to the city council next Monday night for action:

The Lima Water Works.  
Balance on hand Jan. 1, 06—\$ 6,730  
Estimated receipts for 1906. 44,830

Total that can be used in 1906 ..... \$51,560  
Operating expenses 1906.... 21,550  
Addition and boilers now being installed ..... 6,500  
New meters, extension of system and betterments 1906 ..... 3,500

Total ..... \$81,550  
Balance for interest and betterments ..... \$20,000

It is the desire of the Board of Public Service to install a power plant at the main station, which plant is to be used for filling the new reservoir and for any other purpose that may be deemed best. This new plant is estimated to cost \$25,000 and as this amount would require a bond issue, it is proposed to use the following method to allow the improvement to be legally made. (See ordinance authorizing issue of temporary bonds.)

## An Ordinance.

Providing for an issue of bonds for the sum of twenty-five thousand dollars, the proceeds of which shall be used for the purpose of supplying water to the city of Lima, Ohio.

Be it ordained by the council of the city of Lima, State of Ohio, two-thirds of all the members elected thereto concurring.

Section 1.—That it is deemed necessary by the council of the city of Lima, Ohio, to issue and sell bonds of said city in the sum of twenty-five thousand dollars for the purpose of supplying water to the city of Lima, Ohio.

Section 2.—That bonds of said city shall be issued for the sum of twenty-five thousand dollars for the purpose aforesaid, which bonds shall be known as water supply bonds of the City of Lima, Ohio, and shall be in the denomination of one thousand dollars each, 25 in number and numbered from one to twenty-five, both inclusive; shall be dated the day of the delivery to the purchaser and shall mature on or before December 31st, 1906, at the option of the board of sinking fund trustees. Said bonds shall bear interest at the rate of four per cent per annum payable at maturity of said bonds at the office of the city treasurer of said city.

Section 3.—That the mayor and city auditor be and they are hereby authorized and directed on behalf of said city to prepare and execute such bonds in accordance with the provisions of this ordinance. Said bonds shall first be offered at par to the board of sinking fund trustees in their official capacity, and if said trustees refuse to take any or all of said bonds at par, then said bonds not so taken shall be offered for sale in the manner provided by law.

Section 4.—That the proceeds of said bonds shall be placed to the credit of the water works department of the public service fund and shall be used for the purpose of supplying water to the city of Lima, Ohio, and for no other purpose whatsoever.

Section 5.—That for the purpose of redeeming said bonds on or before maturity, all surplus of receipts from the sales of water by the Lima Water Works, is hereby appropriated and the board of public service be and are hereby authorized and directed to cause such surplus to be transferred to the sinking fund and to be used in the redemption of said bonds.

Section 6.—That this ordinance shall be in full force and effect after the course prescribed by law.

The object of this proceeding is—First—The law provides that no contract shall be made unless there is money in the treasury to pay for the improvement. (Sec. 45). There is a provision in this section, however, which allows contracts to be entered into "provided bonds are sold to cover the cost of the improvement and the bonds are in the process of delivery."

Second—It is proposed to sell these bonds to the sinking fund trustees and they will pay for them, either in full or "in lots" with what surplus the water works turns over to redeem them with. At the end of the year the bonds will be "matured investments of the sinking fund" and the sinking fund trustees can redeem them by issuing a check payable to themselves and deposit the check to the credit of the sinking fund as a receipt from "matured investments and interest on same." This process does not require the sinking fund to use a cent of their funds but they will get the credit of saving the water works the interest that would have been paid to any other bond buyer. By sifting all the "method" out of this, it will be found that in reality the only thing that is being done is that of using the receipts of the water works for this year to pay for the proposed improvement. We are complying with all the legal requirements by this method and while it may appear "complicated," it serves the purpose and the only extra expenses incurred is the cost of publishing the ordinance. The bonds will be manuscript bonds and not printed.

INQUIRIES FOR SEATS FOR OLGA NETHERSOLE, WHO APPEARS HERE APRIL 17TH.

HERE THE ENGLISH ACTRESS  
WILL SET SAIL FOR LONDON.

Olga Nethersole, who is scheduled to present her famous play "Sapho" for one performance at the Faurot, on April 17th, is enjoying an extraordinary season of prosperity. The distinguished actress has not been seen in the United States for over four years until this season, but it would appear that her prolonged absence has in no way diminished the extent of her vogue.

Already the local management has received numerous inquiries for seats for the forthcoming engagement, which promises to be a record breaker. Of course, the actress will be supported by the same company that came from England with her and the production will be the same as seen recently in New York and Chicago. Miss Nethersole's tour is under the direction of her brother, Louis Nethersole.

Directly after her local visit, the English actress will set sail for London where she is to open in June.

The great sacrifice closing out sale of Clothing and Gents' Furnishings is now going on and the store will be kept open tonight, at the Lima House Corner.

BEAUTIFUL COLORED LITHOGRAPH OF THE ENGINE "GENERAL" FOR 25 CENTS.

The Nashville, Chattanooga & St. Louis Ry. has just gotten out a very beautiful lithograph, 18x25 inches, of the famous engine "General" which is now on exhibition in the Union Station, Chattanooga, Tenn. The picture is ready for framing and will be mailed to any address for 25 cents. The "General" was stolen by the Andrews' Raiders at Big Shanty, Ga., on the Western & Atlantic R. R., April 12, 1862, and was recaptured by Conductor W. A. Fuller, Anthony Murphy and others, near Ringgold, Ga., after an exciting chase of about 90 miles. It was one of the most thrilling exploits of the Civil War. The object of the raid was to burn the bridges on the W. & A. R. R. and cut off the Confederate Army from its base of supplies. A booklet "The Story of the General" will be sent free upon application.
